Try Big Motoring World Kent if you are on the lookout for a [cheap used BMW in London](#) . I have always dealt with a BMW main dealer but I cannot praise this independent retailer enough. From the moment I made my initial enquiry, they were courteous, helpful and actually took the time to follow up my telephone call. The salesman was very attentive without over stepping the mark and being pushy. I have now bought an X6 3.0d Auto four wheel drive in Alpine White paint with full black leather interior. It has only one previous registered keeper on the log book and low mileage.
